

THE CONQUERORS

BLACK WARRIOR FEAT SWAGGAQUIL & TAMIE SPRING

LYRICS - THE CONQUERORS - BLACK WARRIOR FEATURING SWAGGAQUIL & TAMIE SPRING

INTRO:

A revolution's coming
It's time to stand up strong
When the powers of hate comes to besiege you
(Have no fear)
What side will you be on
Out of the ashes of evil and hate
We, the righteous souls of oppression
We, the children of the sun
We, the guardians of truth will rise up
To inherit the earth
Once conquered, will now become The Conquerors
War
Behold the conqueror, Swagg

VERSE 1:

We fight against a gun and a badge with a sword and a shield
Cuz It's real in the field, Especially in the mind field
And Its time to rise above it, Because we all the same it's just different values that we all covet
Either hate it or love it
Stand strong with muscle
Stay down and tussle, for the righteous life
Either wrong or right, Protect your power Watch the other side check em, Rush em with power before
they even get to flexin
Open ya mind, I'm goin deep for a reason Technique of a Warrior!
Was invisible once, I can do it again
They can't see me walk light and I strike hard!
I can see everything from where I stand, on the mountain top

That's how I know, the redemption of my people is near

CHORUS:

A revolution's coming
(Yeah)
It's time to stand up strong
(Stand strong)
When the powers of hate comes to besiege you
(What you gon do?)
What side will you be on
(Yahh, On the side with my people)

VERSE 2:

How you gon win when you don't know the rules to the life you in
Taught that we all born in a life of sin
Taught that we all need some expensive bling, rings and things that we kill to get from eachother
Brainwash undercover
They don't want us to come together livin as brothers
They as the ones that beat and handcuff us
Vaccines from diseases they made just to snuff us
Blood suckers, and the president is Dracula
If they step this way then they gon have to back it up
Open your mouth and speak the truth then you actin up
Activism is just as bad as sellin crack and stuff
They lock us up for having trees, and go back and sell the same trees to have their pockets at ease
And the money that they make is to strip us from our gold
And to lock us in a system, and rob us of our goals
They tried to call us monkeys but now we gorillas, We livin in reality but this is more realer
They tried to call us monkeys but now we gorillas, We livin in reality but this is more realer (more realer)

CHORUS:

A revolution's coming
(A revolution)
It's time to stand up strong
(Stand strong, gotta stand strong)
When the powers of hate comes to besiege you
(Cmon, cmon, cmon)
What side will you be on
(Yeah)

VERSE 3:

As we endeavor to elevate ourself
(Another black man, incarcerated)
In this realm of insanity

(Another black child, miseducated)
We must know that the road to liberation
(Another life, taken by the gun)
Is not one of war and bloodshed
(Another mother, burying her son)
But enlightenment and illumination
(Another veteran, homeless on the street)
As the battle wages on
(Another child, with nothing to eat)
We must do everything in our power
(Another politician telling us lies)
To free ourselves from the shackles
(As the immigrant baby cries)
On our minds

OUTRO:

Gotta find a way to freedom, got to find a way
The truth has been revealed
A revolution's coming
I'm the Black Warrior
It's time to stand up strong
And I am a Conqueror
